RIFAT ERDEM SAHIN

AI SOLUTIONS ARCHITECT | ENTERPRISE AI STRATEGY LEAD

📍 **Location:** London, United Kingdom
🇬🇧 **Citizenship:** British
✉️ **Email:** contact@rifaterdemsahin.com
📞 **Phone:** +44 7848 024173
🔗 **LinkedIn:** linkedin.com/in/rifaterdemsahin
💻 **GitHub:** github.com/rifaterdemsahin
🌐 **Portfolio:** https://rifaterdemsahin.com
📅 **Schedule a Call:** https://calendly.com/rifaterdem/schedule

PROFESSIONAL SUMMARY

Senior AI Solutions Architect with proven expertise in **designing and implementing enterprise-scale AI ecosystems**. Specializes in translating complex business requirements into scalable AI architectures, with deep experience in **AI strategy, solution design, and enterprise integration**. Track record of architecting AI solutions that delivered 300% productivity improvements and 30% cost reductions across financial services, healthcare, and real estate sectors. Expert in bridging business strategy with cutting-edge AI technology implementation.

CORE AI ARCHITECTURE COMPETENCIES

🏗️ **Enterprise AI Architecture** - Comprehensive design of end-to-end AI solution architectures - Integration patterns for AI services with existing enterprise systems - Microservices and API-first approaches for AI solution deployment - Scalable architecture patterns supporting millions of AI transactions

🎯 **AI Strategy & Roadmap Development** - Business-aligned AI transformation strategies and implementation roadmaps - ROI-focused AI solution design and business case development - Technology stack evaluation and vendor selection for AI initiatives - Risk assessment and mitigation strategies for AI implementations

🔄 **AI Integration & Orchestration** - Expert in integrating AI capabilities across complex enterprise landscapes - API management and service mesh architectures for AI services - Event-driven architectures for real-time AI processing - Hybrid cloud and multi-cloud AI deployment strategies

🔒 **AI Governance & Compliance** - Enterprise AI governance frameworks and policy development - AI ethics, bias detection, and responsible AI implementation - Compliance architectures for regulated

industries (finance, healthcare) - Security-first AI design with privacy-by-design principles

🧪 **AI Solution Validation** - Proof-of-concept development and technical feasibility assessment - Performance benchmarking and scalability testing frameworks - Cost optimization models for AI infrastructure and operations - Quality assurance frameworks for AI solution delivery

---

KEY AI ARCHITECTURE ACCOMPLISHMENTS

🏆 2026 – Present | Delivery Pilot — Skool Platform

AI Professional Transformation & Forward Deployed Engineering Mentorship - Mentoring engineers and technology professionals to transition into AI Engineers and Forward Deployed Engineers (FDE) by closing practical and technical skill gaps. - Designing and delivering hands-on curriculum on the Skool Platform covering AI-augmented engineering, RAG architectures, multi-LLM orchestration, agentic workflows (n8n, MCP), and GitOps delivery. - Guiding cohort members through building, evaluating, and deploying production-grade AI applications and cloud-native integrations. - **Technologies:** Anthropic Claude, OpenAI, RAG, Qdrant, n8n, LangChain, Kubernetes, Docker, Python, Skool Platform

🏆 2024 | Goldman Sachs | Muscat, Oman

Enterprise AI-Driven Automation Architecture - **Challenge:** Design scalable AI architecture for automated CI/CD across enterprise fintech environment - **Solution:** Architected comprehensive AI ecosystem with LLM orchestration, automated workflows, and intelligent monitoring - **Impact:** - 300% increase in deployment frequency through intelligent automation - 30% reduction in operational costs via optimized AI resource allocation - 85% reduction in deployment incidents through predictive error detection - **Architecture:** Microservices-based AI platform, RAG-powered documentation system, multi-model AI orchestration - **Technologies:** Azure OpenAI, Kubernetes, Event Hub, API Management, Service Mesh

🏆 2023 | Ypsomed | Switzerland

IoT-AI Convergence Architecture - **Challenge:** Design integrated architecture combining IoT data streams with AI analytics for medical device insights - **Solution:** Architected real-time AI analytics platform with predictive maintenance and intelligent anomaly detection - **Impact:** - 40% improvement in system reliability through predictive architecture - 35% reduction in device failures via AI-powered maintenance scheduling - Real-time insights enabling proactive healthcare delivery optimization - **Architecture:** Event-streaming architecture, time-series AI models, edge computing integration - **Technologies:** Azure IoT Suite, Stream Analytics, ML Studio, Edge computing, Time-series databases

🏆 2022 | Cushman & Wakefield | London, UK

Intelligent Real Estate Analytics Architecture - **Challenge:** Architect AI-powered data platform for real-time property market intelligence - **Solution:** Designed unified AI analytics architecture with automated data processing and intelligent insights generation - **Impact:** - 50% faster market analysis through automated AI-driven insights - 90% improvement in data quality via intelligent validation architectures - Real-time market intelligence enabling strategic business decisions - **Architecture:** Data lake architecture, AI-

powered ETL pipelines, real-time analytics dashboard - **Technologies:** Azure Data Factory, Synapse Analytics, Power BI, ML pipelines, API Management

---

TECHNICAL ARCHITECTURE EXPERTISE

AI Solution Architecture Patterns

Design Patterns: Microservices AI, Event-driven AI, Serverless AI, Edge AI Computing
Integration: API Gateway, Service Mesh, Event Streaming, Message Queues
Scalability: Auto-scaling AI workloads, Load balancing, Distributed computing
Monitoring: AI observability, Performance monitoring, Cost optimization, SLA management

Enterprise AI Platforms

Cloud AI Services: Azure AI Services, AWS AI/ML Suite, Google AI Platform, IBM Watson
AI Orchestration: Kubeflow, MLflow, Azure ML, AWS SageMaker, AI Platform Pipelines
Data Architecture: Data Lakes, Data Warehouses, Real-time streaming, Data mesh patterns
Security: Zero-trust AI architectures, Encryption, Access control, Audit frameworks

Solution Design & Modeling

Architecture Tools: Enterprise Architect, Visio, Lucidchart, Draw.io, Miro
Documentation: Solution blueprints, Technical specifications, Architecture decision records
Methodology: TOGAF, Zachman Framework, Agile architecture, Design thinking
Stakeholder Management: Executive presentations, Technical reviews, Cross-functional collaboration

---

AI SOLUTION ARCHITECTURE SPECIALIZATIONS

Enterprise AI Platform Design

- Designed multi-tenant AI platforms serving 10M+ daily transactions
- Architected hybrid cloud AI solutions with 99.9% uptime requirements
- Implemented cost-optimized AI infrastructure reducing operational costs by 40%
- Created scalable AI service catalogs enabling self-service AI capabilities

AI-Business Process Integration

- Architected AI-powered workflow automation reducing manual effort by 70%
- Designed intelligent document processing pipelines with 95% accuracy
- Implemented real-time AI decision engines for business process optimization
- Created AI-enhanced customer experience platforms improving satisfaction by 45%

AI Data Architecture & Analytics

- Designed data mesh architectures supporting AI workloads across business units
- Architected real-time AI analytics platforms processing TB-scale data streams
- Implemented AI-powered data quality frameworks with automated remediation
- Created federated AI model governance across distributed enterprise environments

AI Security & Compliance Architecture

- Designed zero-trust AI architectures for highly regulated environments
- Implemented AI bias detection and mitigation frameworks
- Architected privacy-preserving AI solutions with differential privacy
- Created AI audit trails and explainability frameworks for compliance

---

PROFESSIONAL EXPERIENCE HIGHLIGHTS

Founder & Lead AI Mentor / Delivery Pilot | 2026 – Present
Delivery Pilot (Skool Platform) · Remote

- Leading AI engineering mentorship and training on the Skool Platform to help professionals bridge skills gaps and become production-ready Forward Deployed Engineers (FDE)
- Designing curriculum across LLM orchestration, RAG architectures, prompt engineering, agentic workflows, and cloud-native AI delivery
- Conducting hands-on architecture reviews and portfolio project evaluations

Senior AI Solutions Architect / Technical Lead | 2020 - Present
Goldman Sachs, Ypsomed, Cushman & Wakefield

- Led enterprise AI architecture initiatives across finance, healthcare, and real estate sectors
- Designed and implemented AI platforms supporting millions of daily AI interactions
- Established AI governance frameworks ensuring compliance and scalable AI adoption
- Mentored technical teams on AI architecture best practices and solution patterns
- Delivered AI transformation roadmaps driving 300% improvement in operational efficiency

Enterprise Solutions Architect | 2016 - 2020
Microsoft, Emerson, Various Fortune 500

- Architected digital transformation solutions incorporating advanced AI capabilities
- Led cross-functional teams designing AI-enhanced enterprise applications
- Established cloud-first AI architecture patterns and implementation guidelines
- Evangelized AI adoption through architecture workshops and technical leadership

---

EDUCATION

🎓 **Bachelor of Science**
Southern New Hampshire University, USA 🇺🇸 | 2013

CERTIFICATIONS & ARCHITECTURE CREDENTIALS

📜 **Microsoft Certified Solutions Architect Expert**
📜 **Azure AI Engineer Associate**
📜 **AWS Solutions Architect Professional**
📜 **TOGAF 9 Certified Enterprise Architect**
📜 **Certified Kubernetes Administrator (CKA)**

Architecture Leadership:
- Enterprise Architecture Review Board member - AI Center of Excellence technical advisor - Cross-industry AI architecture thought leadership - Regular contributor to architecture frameworks and best practices

THOUGHT LEADERSHIP & SPEAKING

- Technical architecture blog focusing on AI solution patterns at rifaterdemsahin.com
- Enterprise AI architecture workshops and technical presentations
- AI governance and strategy advisory for enterprise transformation initiatives
- Architecture mentorship and technical community leadership

SECURITY CLEARANCES

🔒 **UK SC (Security Check)** - Valid until 2028
🔒 **NATO Clearance** - Valid until 2029
✓ **Background Checks:** Watchdog (2024), Sterling (2019)

AVAILABILITY & CONTACT

Immediate Availability for senior AI architecture and strategy roles

📅 **Schedule a Discussion:** https://calendly.com/rifaterdem/schedule
📧 **Email:** contact@rifaterdemsahin.com
📞 **Phone:** +44 7848 024173

SUPPORTING DOCUMENTS
